

Extending Support to Nepal Earthquake Victims:

The Vforce Infotech team had come together with a lot of enthusiasm to support the recent Nepal earthquake victims.

It was such a wonderful experience to see the entire team hold an event, titled, the "Snack Sale" on 5/11/2015, which was a great success! We were able to raise some money to which the company generously added three times the collected amount. We are proud to be able to extend direct support to the victims, and know that the funds are reaching them.

In this fast-paced life, we often forget that we belong to a world prone to calamities, natural disasters and not everyone is fortunate. And if each one of us could become responsible humans, there are more than few people who could appreciate a helping hand. As it is aptly said, "Every little bit counts!"

Vforce Infotech team is so thrilled and looks forward to such events, which would support a noble cause!
